### About us

We are leading Electrical Contractors with basic infrastructure to execute large Turnkey Projects in Mumbai and other metro cities all over India.

RFFIFX

CONTRACTORS & ENGINEERS

We have vast and varied experience of over 18 years and having worked with leading Architects and Electrical Consultants of international repute.

We have executed work of various natures in the field of High/Low Voltage Infrastructural Development/Power Upgradation to downstream Lighting and Power Distribution with Integrated Solutions for Computer Network, Data and Voice, Fire Access, Surveillance and Security System.

We provide our specialized services to:

- Financial Institutes
- Baanks
- Hospitals
- Hotels
- High Profile Residences
- Corporate Offices
- Information Technology Offices
- Malls
- Cellular Operators

The quality and finish of our work is of the highest standards and can be verified at different sites of our prestigious clients.

Given a chance to serve, we assure of our best services with the highest quality of material/products available in the market with upto mark workmanship.

## Vision

To see our company grow on the strength of our performance.

Our performance is evident from the accolades we have received from our clients.

Our clients recognize us as an organization setting the standards in quality and workmanship and relentlessly delivering cost-effective services and solutions.

### Mission

REFLEXIONS (INDIA) PVT. LTD. is poised for unlimited growth in the Electrical Contracting field. Having strong presence throughout India, we believe in controlled growth.

Our mission is to be recognized as a reputed organization through excellent and efficient service to exceed customers' expectations.

Our goal is to achieve excellence in customer service by monitoring and meeting specific performance standards.

### Quality Policy

REFLEXI NS CONTRACTORS & ENGINEERS

To offer a range of quality services in the field of electrical infrastructural development with a special focus on diverging value through a personalized approach to ensure customer satisfaction.

We are committed to being a dependable provider of user-friendly electrical infrastructural services while continually changing customer expectations. The organization will constantly endeavor to keep abreast of newer trends and technologies to achieve the objective of continual improvement.

The management is committed to provide the required resources in the form of infrastructure technology and training to its personnel and ensure a healthy work environment to help enhance individual performance, inculcate a spirit of team work and achieve organizational goals and objectives.

the organization will take care of function within the parameters of the prevalent statutory / mandatory regulations during normal course of operation.
